PROFILE

Builds usable AI proof from rough ideas.

Practical, self-directed AI implementation builder focused on working demos, voice-agent front doors, workflow automation, mobile-first product flows, and sales-ready pages people can understand fast.

SELECTED AI IMPLEMENTATION WORK

FIELD OPERATIONS

Clockin Volts

Contractor ops demo for clock-in, jobsite proof, photos, tasks, materials, and manager review in one mobile-first workflow.

CONVERSATIONAL AI

Voice Agent Concepts

ElevenLabs-style assistants and character systems for intake, routing, project explanation, and embedded voice interfaces.

AI WORKFLOW

Property Manager

Maintenance command center for resident intake, photo requests, vendor routing, manager visibility, and next steps.

DATA PRODUCT

RizeNet Bond Intel

Research viewer that turns dense bond records into a searchable surface with product-style filtering and structure.

RELEVANT HISTORY

Independent AI Automation and Operations Builder

2023-Present

Builds AI-assisted workflows, live demos, documentation, voice-agent concepts, and product proof from rough business ideas.

Founder / Operator

2022-Present

Managed positioning, customer communication, service concepts, and hands-on execution across independent business efforts.

Field, delivery, and service roles

2015-Present

Built real operations sense through delivery contracting, TruGreen, Valvoline shift leadership, warehouse work, and customer-facing service.

WHAT MAKES ME USEFUL

- Turns vague AI ideas into demos, workflows, and customer-facing pages.
- Strong instinct for what a prospect, hiring team, or customer needs to understand first.
- Uses AI tools for speed while keeping the product story clear and practical.
- Grounded by real operations, field work, logistics, customer communication, and follow-through.

SERVICES I CAN DELIVER

Agent front doors

Voice or chat assistants that explain a project, collect context, and route users to the right next step.

Workflow demos

Clickable proof for messy operations: intake, review, handoff, accountability, and manager visibility.

Sales-ready pages

Clear landing pages and demo flows that help a prospect understand the product idea quickly.
